

16th October 2009

Dear Parents

LEARN AN INSTRUMENT STARTING FROM 4 YRS OLD

RMKG has a strong music tradition and it has always been our goal to give all students an early musical foundation. To this end, the school has been teaching all students music theory and classical music appreciation from pre-nursery.

Our school choir came first place and many of our little violinists received good honours in the Hong Kong Speech and Music Festival in 2008/09. Our heartfelt gratitude goes to parents and teachers who supported the school in its quest. It is a fact that talents are nurtured early, so we encourage you to start musical instrument tuition as early as four years old. Most of the elite primary schools in Hong Kong have made learning a musical instrument mandatory for all students. We see that this is a good move as we understand that music soothes the heart and nourishes the soul.

Our school has selected music teachers who can teach violin (Suzuki, with parents), cello and/or piano outside school hours. Please indicate which instrument you would like you child to learn so we can make suitable referrals.

These teachers are independent of the school but we have had a long history of association with them. This notice only serves as a friendly reminder to parents to consider starting music tuition this year.

Yours faithfully
Rightmind International Nursery & Kindergarten

Please indicate your response by ticking:

- I do not want my child to start learning a musical instrument this year.
- I would like my child to start learning violin / cello / piano and please ask the teacher to contact me by:

Phone: _____

Email: _____

Name of parent: _____

Name of child: _____

Class: _____
