

2<sup>nd</sup> September 2009

Dear Parents

A great start to a great year.

On behalf of the full team of academic and support staff, I would like to welcome your family to Rightmind Kindergarten. We look forward to a great year of learning and fun for your child and the whole family.

We all understand that the society is under the threat of the swine flu H1N1. The school has taken this matter seriously and you will note that the following precautions have been implemented to protect your child:

1. All areas of the school are protected by IQAir, the air filtration system used by ICU at major hospitals;
2. Sterilisation fluid dispensers are installed for use by your child at various spots throughout the school;
3. All students will have their temperature measured before they enter the school; and
4. The school will install a hospital grade water system which produces alkaline water for consumption by all students during school hours to boost immunity.

We urge you to make sure that your children sleep early each night and please consider giving them a vitamin D supplement. Please keep your child at home should they show symptoms of illness. Please contact our school office on 2875 0452 should you have any queries on the subject.

Yours faithfully

Winnie Lo  
Headmistress

Rightmind International Nursery & Kindergarten
